REMOTE TRANSACTION UNITS

REMOTE TRANSACTION UNITS

Our Remote Transaction Systems are available to meet any of your auto-banking needs. From up-send to down-send, and even commercial systems, SDA has the solutions. All systems are U.L. listed for safe usage and electrical safety. One-way and two-way video is optional. Systems are readily available for replacing worn systems or for new construction installation.

FEATURES MAY VARY BY SYSTEM, AND CAN INCLUDE:

- Stainless-steel customer units.
- Pneumatic action utilizing 110vac blowers.
- Low-cost and economical to operate.
- Small island footprint makes excellent replacement.
- Steel or PVC pneumatic tubing available.
- Low voltage audio and video.
- Up-send or down-send teller terminals.
- Optional Forms Dispenser available allowing service to customers in queue.
